The House of Sforza are a powerful criminal bloodline from Milan and Rome that is closely related to the Visconti family. They have authority over various north Italian billionaires and over the Milan Stock Exchange or Borsa Italiana. Both the Sforza and Visconti families use a biscione or serpent eating a child on their coat of arms which displays their wicked nature and is a symbol for pedophilia and cannibalism. The NWO agenda is about human enslavement for the purpose of cannibalism. The Biscione represents the Boidae snake which are constrictor serpents with females being larger than males. This is where the word Amazon derives from which were tribes of violent females. The Amazon jungle was named after the Amazon tribes around the Mediterranean. The Amazon Jungle is where various constrictor serpents inhabit including the largest the Anaconda. The character of Hannibal Lecter is supposed to be a descendent of the Sforza family. The snake eating the child symbol is also on the family crest of Anthony Fauci (Abyss bloodline from ***Switzerland***). Fauci, of course, oversees the Covid vaccines along with Bill Gates, which has caused plenty of deaths - about 9,000 killed according to the VAERS database.

Fauci also played a role in the AIDs psyop during the 80s and the 90s. The more things change, the more they stay the same.
